

GLENVILLE WOODS PARK PRESERVE

Glenville Woods Park Preserve

Maintained by the Town of Greenburgh, the 44.7-acre site serves as nature preserve and a place for easily accessible passive outdoor recreation (just off Rte 119 in Tarrytown, NY).

Within the park, there are three clearly blazed trails (Blue, Yellow & Red trails), a pond & a playground

The property is an ideal site for hiking, nature study, bird-watching or just sitting on one of the stone walls enjoying the scenery.

Besides the recreational opportunities within the park, the park happens to be part of a 580-acre strip of contiguous woodlands in central Westchester and it serves as a valuable connection to a variety of additional off road trails.

On the north side (at Eastview), the Blue trail connects to:

The Tarrytown Lakes Trail
The North County Trailway
The South County Trailway
And the Buttermilk Ridge County Preserve.

Parking Areas

Old White Plains Rd lot
Eastview Park-n-Ride lot
