PRICING YOUR HOME

Pricing your home competitively for the current market is important for maximum exposure to prospective buyers. Most home buyers search online narrowing by location and price first. This will be the first filter to gain massive attention for your house. Together we will review recent comparable sales in your neighborhood to determine your home's market value. It's important to note that price is one of the most important factors to consider when selling your house.

We will be sure to hit the sweet spot!

Why Smart Pricing is Important

STAGING YOUR HOME

Presenting a show-ready house makes for great first impressions on buyers!

Together we will walk through the interior and exterior to discuss ways to highlight your home's features and benefits. Simple fine-tuning can have big impacts- especially for the photography. Appeal to buyers and enhance the appearance of your house through a minimal and fresh approach.

MARKETING YOUR HOME

ACCORDING TO THE NATIONAL ASSOCIATION OF REALTORS:

“The share of home buyers who used the internet to search for a home increased to an all-time high of 97% in 2020.”
