Purchasing a Home

- 1 Get Pre-Approved**

Your offer will look better and you will feel more confident in choosing a home.
- 2 Decide on a Budget**

Determine your budget and how much you can afford.
- 3 Pick ONE Real Estate Agent**

You only need one agent and working with multiple may put you in a situation in which you have to write an offer with an agent you really didn't like or trust. One REALTOR® can help you with ALL listed properties and For-Sale-By-Owner properties.
- 4 Determine your Must-Haves**

Determine your 3 most important considerations. Unless you build a new home, you are not likely to find everything that you want in one home, but it's good to have your top requirements written down.
- 5 ALWAYS ask questions!**

Communication between us is the only way to ensure you are comfortable in the process of finding your new home.

The Process

1. The Search

We will work together to set up a customized search for you that meets your criteria, as well as providing other systems. If you see a property you are interested in, contact ME, no matter who has it listed or if it is For Sale By Owner. If you don't call me, you could be putting yourself in a position where you will have to write an offer with someone else (or worse—owe two commissions).

2. We Found **THE ONE!**

When we find your dream home, we will sit down and write the strongest offer possible. From there, I will assist you to ensure all paperwork and contingencies are met. We will review all of the contingencies and make sure you understand the offer... it is a legally binding document.

3. Your Offer was **ACCEPTED!**

I will make sure all timelines are met, and ensure that you are aware of your responsibilities. This will get you to closing; and on time.

4. Closing—Congratulations! You have a **NEW HOME!**

The transaction is finalized and you get the keys!

Getting Pre-Approved

- ◆ A lender will check your credit and income to see if you are a good candidate for a loan.
- ◆ If your credit rating is poor, there are things you can do to improve it.
 - ◆ Make sure the report is correct. If not, call to get it corrected.
 - ◆ Begin to pay your bills on time.
 - ◆ Use no more than four credit cards so you can keep track of them.
 - ◆ Keep separate checking and savings accounts.
 - ◆ Keep the same job for a few years.
- ◆ **Pre-Qualified vs. Pre-Approved**
 - ◆ Pre-Qualified: an estimate of what you can afford
 - ◆ Pre-Approved: confirmation that the lender will give you a commitment to support your purchase. Being Pre-Approved makes you a more attractive candidate to a seller when considering offers.

- ◆ Waiting period
- ◆ Special contract provisions
- ◆ Lender approval
- ◆ Inspections
- ◆ As-Is
- ◆ REO / Foreclosures
- ◆ Selling your home

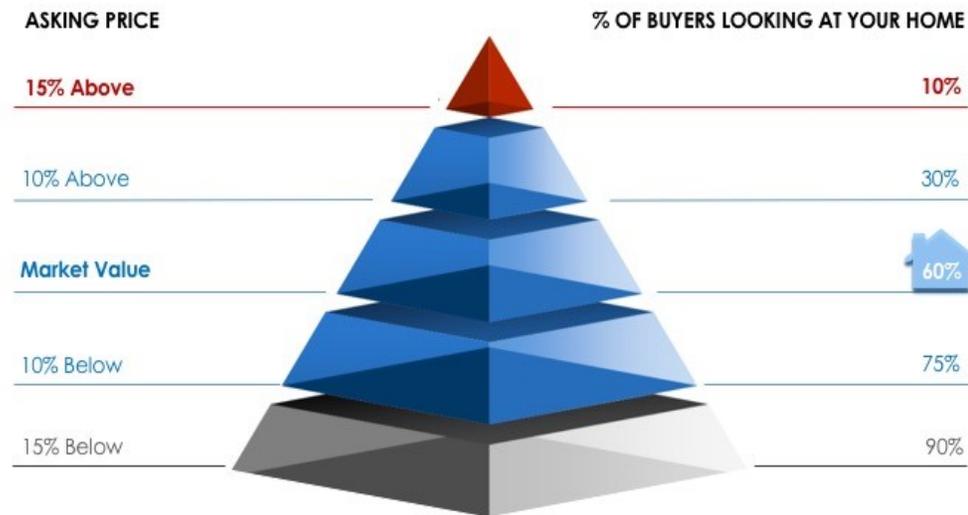

How Pricing Works

The Right Price is Important

A property generates the most interest when it first hits the market.

The number of showings is greatest during this time. Pricing a property competitively will generate the most activity from agents and other buyers.

Pricing a property too high may provide opportunity to negotiate a lower price, to get it to an appropriate value. But starting too high, and dropping the price later, misses the excitement and fails to generate strong activity. Many homes that start high end up selling below market value.

Your Offer

You've found the perfect home!

Now we write an offer!

- ◆ We will review all of the contingencies and make sure you understand your offer.
- ◆ We will advise you on how to be successful, taking all factors into consideration.
- ◆ Together we will write up the offer and ensure all paperwork and activities are completed so you can close on your new property.

About the Transaction:

Here are some things to know, to ensure you have the smoothest transaction possible:

- ◆ **Negotiations:** Don't make it personal. Most of the time, you don't know the seller, and the seller doesn't know you. Each party is just trying to get the most from the transaction (and it's not always money). Approach your negotiations hoping to achieve a win-win feeling.
- ◆ **Financing:** As a buyer, your financing is the one area where you will really need to stay on top of things. It is important to get pre-approved before you start looking, and lock your rate within a week of acceptance (if you want to close in 30 days). Also, make sure that you and your loan officer communicate; if they request documents, get them AS SOON AS POSSIBLE!
- ◆ **Inspections:** It is the inspector's job to thoroughly inspect your property! Things will come up. The purpose of the inspection is to make you aware of what you are buying. This will allow you to budget for future home ownership repairs, and most importantly, make sure that there are no major defects! What is a defect: Per lines 182-184 of the WB-11 Residential Offer to Purchase:
"A defect means a condition that would have a significant adverse effect on the value of the property; that would significantly impair the health or safety of future occupants of the property; or that if not repaired, removed or replaced, would significantly shorten or adversely affect the expected normal life of the premises."
In other words, a defect will make the house worth less or harm the property if not fixed.
- ◆ **Most importantly:** Wait until after closing to make major purchases (furniture, appliances, etc.).

It's Closing Time

A few days before your closing you will get information about what you need to bring with you.

You will meet with the title company to finalize the transaction.

I will guide you through all the closing procedures to make your home officially YOURS, and make sure there are no issues.

You will get the keys after all the paperwork is complete!
