

Winter Maintenance

*A home care
checklist for the
winter months*

Home Maintenance Checklist

Interior: Keep attic louvers and vents open all year round. Check louver screening. ☐

Heating and Cooling: Change or clean furnace filters and air-conditioning filters monthly. ☐

Plumbing: Check for leaks at traps and sewer cleanouts. ☐

Electrical: Test ground fault circuit interrupters. ☐

Interior: Check bathroom tile joints, tub grout and caulking. Be sure all tile joints in bathrooms are kept well sealed with tile grout to prevent damage to walls, floors and ceilings below. ☐
