

Satisfied Customers

That is our goal, and nothing makes us happier than helping clients settle into their dream homes.

That's why we created our

Move-Up Buyer's Advantage Plan™

When you list your property and purchase your next home with us within 30 days from its sale, we slash our commission to save you money.

"I absolutely loved working with Keep Austin Weird Homes. The team was very patient with me, and answered any and all questions that I had. Not only did they find a buyer for my home quickly, they kept me updated the entire time. Rodney and Theresa were very informative, efficient, organized, and always went over all options with me."

- O. Alejandro

This protects you from inflated or lowball pricing.

If you decide to list your home for **MORE** than the price we recommend, we'll only earn commission on the amount we projected it would sell for.

If your home or condo ends up selling for **LESS** than the price we recommended, we'll reduce our total commission by **TWICE** the percentage of the difference!

If this all sounds different, that's because it is...and that's what we are all about.

"You've been some of the more tenacious and least obnoxious Realtors® we've dealt with and that's a big darn deal."

- S. Van Meter

Our Pricing Promise™

When your home is so **HOT** that it practically sells itself, doesn't it seem weird to pay a real estate agent a full commission?

We think so.

So we created our

Quick Sale Clause™

If your home goes under contract within 14 days after you list it with us, we'll reduce our commission by \$795⁰⁰.

Simple as that.

"Rodney and Theresa helped me sell my house amidst a difficult market. They took great pictures, and were very knowledgeable. Rodney definitely went above and beyond. The team made sure I got updates on showings and the current market. I highly recommend anyone who wants experienced and friendly Realtors® to work with Keep Austin Weird Homes."

- C. Lee
