Featured Time Intervals

Kids go **BACK TO SCHOOL**

You go **BACK TO POOL**

At this time of year, the island pace slows further. The pool grows quieter, lines at restaurants are shorter, and there's a little more sand between you and your neighbor's towel under a sun that feels less intense.

There are Whaler TIO properties offered now with the sought-after option of owning consecutive weeks. **Spend a month on the beach with sequential units.**

Or choose from a studio or 1BD/1BA interval for two weeks in some of the resort's most desirable locations—both great values!
