# CIR REALTY

CIR REALTY is Calgary's largest independent agency with over 600 REALTORS® and Staff spread over four Calgary and ten Alberta satellite offices. As a new member of Leading Real Estate Companies of the World™, CIR REALTY is proud to also be one of the 500 affiliate firms in the world-wide organization that holds the number one position in terms of sales or volume in more of the top markets than any other national association.

We recognize that most companies either grow or retract- seldom have any achieved success by staying the same. Growing companies have some common attributes which include high energy, enthusiasm, enlightened leadership and a clear sense of purpose. CIR REALTY has all these attributes.

CIR REALTY has plenty of room to develop in Alberta. We are already proud to have Calgary's second highest market share, but we have our sights set on positioning to be number one in all of the markets we operate in. A growing and thriving company is not only more stable and secure, but also provides greater opportunities and excitement for everyone involved.

Our Managers and Staff take their jobs and responsibilities seriously. We know we are a part of a winning team because we have the skills, experience and determination to make a difference to our REALTORS® and their clients. We choose to perform at a high level so our REALTORS® can do the same. CIR REALTY REALTORS® demand nothing less and they deserve nothing less.

# City Guide

Calgary is a city that stands on its own. The surrounding region boasts small town living, yet the towns do not actually border Calgary. The city continues to grow with many people moving from other countries as well as other parts of Canada. Space is not an issue here.

# Calgary

Calgary is a diverse and expansive city built on a quadrant system with easy access to the mountains and river valleys. Calgary's appeal goes beyond oil, gas and cowboy hats. This city has something for everyone.

Lying at the foothills of Alberta's Rocky Mountains, and at the meeting point of the Bow and Elbow Rivers in south-central Alberta, Calgary is the largest city in Alberta with over 1 million residents and growing.

Calgary has seen much economic success and is growing quickly. Alberta's economy, driven by its massive oil reserves, is seeing its biggest boom in the province's history. As a result, Calgary is experiencing an enormous boost in real estate, employment, and general population wealth. Alberta tends to have a more conservative or libertarian approach to governing and politics. The province therefore has some of the lowest taxes in all of Canada. Alberta's political climate also ensures very attractive investor incentives and benefits, not to mention comparatively high wages and salary.

Calgary is close by to many national parks. Banff National Park and Jasper National Park are well known for their spectacular natural sites and year-round outdoor adventure opportunities – they are popular destinations for those who love to ski, hike, bike, walk, and enjoy the scenery. In addition to the natural attractions in and around Calgary, the city boasts a bustling nightlife, local theatre, and the world famous Calgary Stampede - an annual event that showcases the Cowboy culture of Alberta.

Calgary is a relatively new city gaining a place on the international stage. It is growing by the minute – expanding its safe and secure residential neighbourhoods, its growing and highly profitable commercial presence, and its continuing promise of happiness and prosperity to all who live within its boundaries. Calgary is a significant immigration destination with about 23% of its population coming from outside of Canada.

# Map of Calgary

# Calgary NW

## \* Known for...

The NW end of the city makes for a quick exit to the mountains and boasts some great parks including Bowness Park and Nose Hill Park.

# Calgary NE

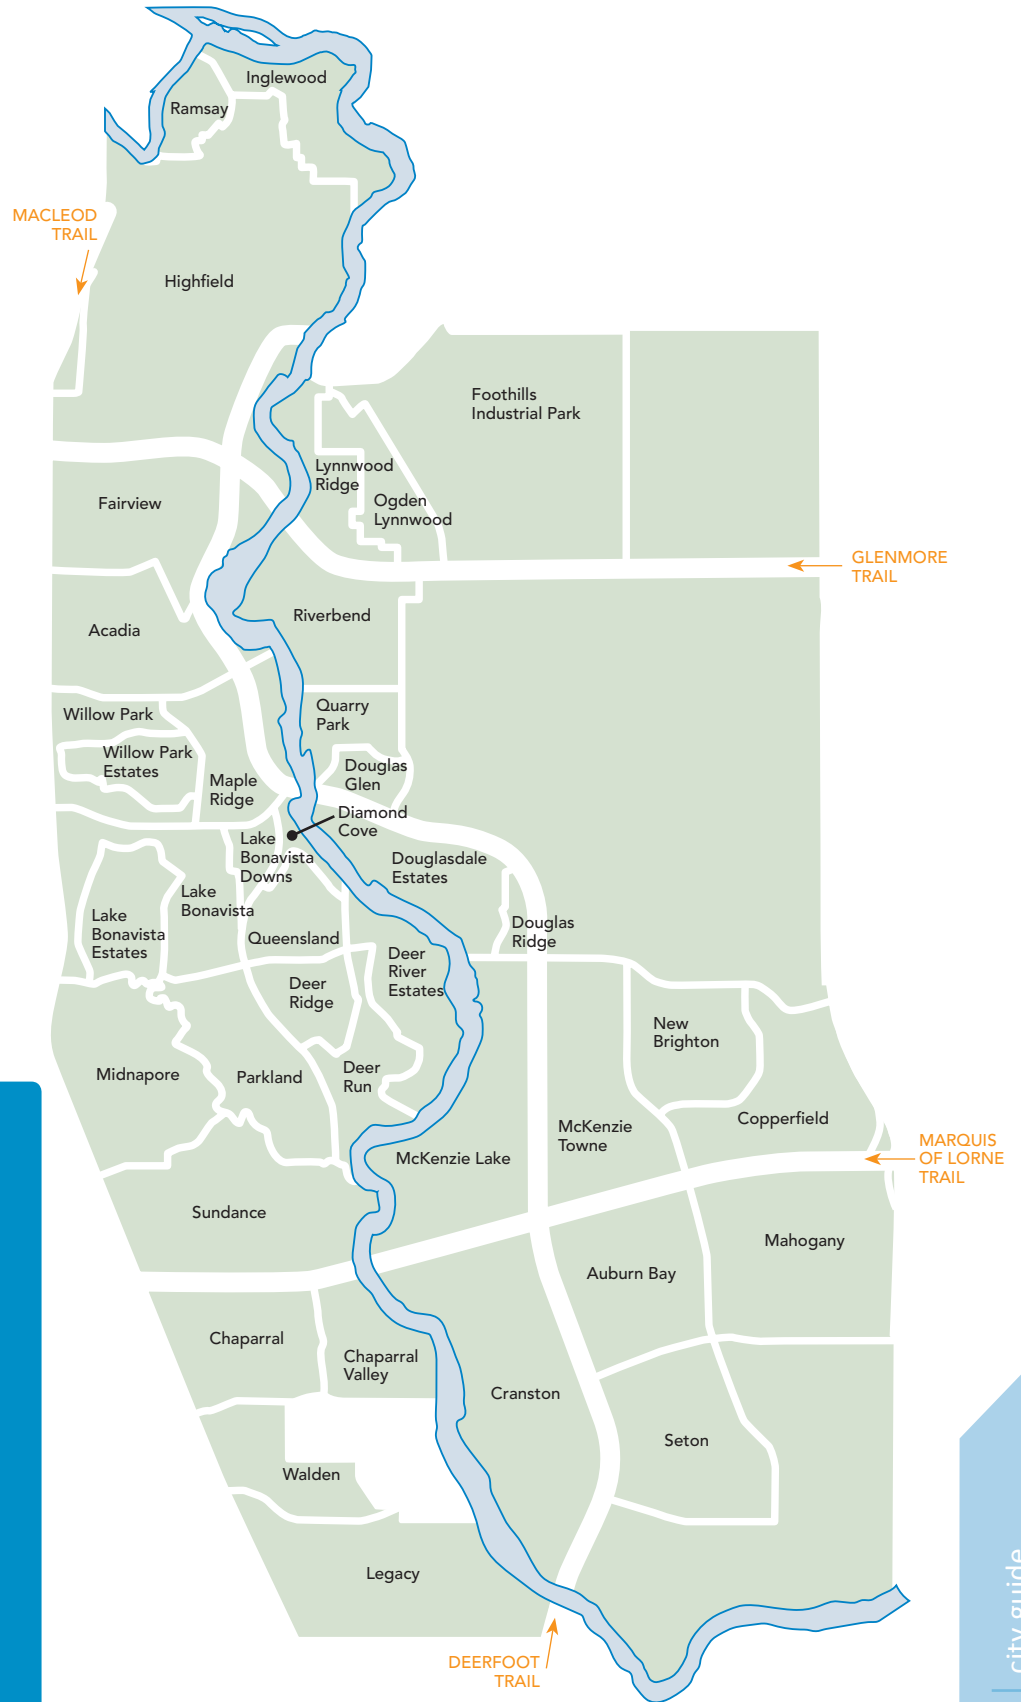

## \* Known for...

The NE end is in close proximity to Calgary International Airport, and its multicultural neighbourhoods make for some of the best food in the city!

# Calgary SE

## \* Known for...

The SE quadrant runs the gamut from some of the oldest neighbourhoods in the city to some of the newest. It also includes a major industrial park (Foothills) and Canada's largest urban park; Fish Creek Provincial Park.

# Calgary SW

## \* Known for...

SW Calgary flanks the Elbow and Bow rivers, features high-end shopping on Uptown 17th Avenue and is host to many of the city's pristine golf courses.

# Getting Around

Calgary is an expansive city with many unique ways of getting around.

## Calgary International Airport (YYC)

Calgary is a transportation hub for much of central and western Canada. The airport, in the city's North East, is the third largest in Canada by aircraft movements and is a major cargo hub. YYC has both the longest runway (4.2 km) and tallest free-standing control tower (over 300 ft) in Canada. [calgaryairport.com](http://calgaryairport.com)

## Trains

The Rocky Mountaineer, [rockymountaineer.com](http://rockymountaineer.com), and Royal Canadian Pacific, [royalcanadianpacific.com](http://royalcanadianpacific.com), operate railtour services to and from Calgary.

## Roads

The city is divided into four quadrants (North East, North West, South East and South West). Much of the city is on a grid where roads are numbered with avenues running east–west and streets running north–south. In Calgary it is not uncommon to find non-numbered streets within a new community that have the same name prefix as the community itself so that streets can more easily be located within the city, but this also makes it very important to make sure you know if it is a Street or Road or Boulevard, etc... that you are looking for.

## Transit

Calgary Transit provides public transportation services throughout the city with buses and light rail. Calgary's rail system, known as the C-Train, was one of the first such systems in North America and consists of three lines (two routes) on 90 kilometres (56 mi) of double tracks. The bus system has over 160 routes and is operated by 861 vehicles. [calgarytransit.com](http://calgarytransit.com)

## Pathway System

At any time of the year you can walk, run, ride or rollerblade through the entire city without ever touching a main road. Nearly 800 kilometres of pathways run along the Bow and Elbow rivers, connecting Fish Creek Provincial Park, Nose Creek, West Nose Creek, the Western Irrigation District Canal and the perimeter of the Glenmore Reservoir. Dozens of Calgary communities are linked by the pathway system and the City of Calgary works extremely hard to keep these pathways clear for use.

With another 290 kilometres of on-street bikeways, the city of Calgary can boast the most extensive urban pathway and bikeway network in North America.

# Calgary Region

When you live in one of the many communities close to Calgary, you enjoy all the friendly comforts of small town living, plus the advantages of nearby big city services and opportunities.

It's a way of life that's become increasingly popular, especially for young families in the area. Being close to a larger centre allows people to travel into the city for work, specialized medical care, concerts or classes.

There are a number of diverse municipalities in the Calgary region, from Banff in the west to Strathmore in the east, and from Irricana in the north to Nanton in the south.

You can see why: some of the finest untouched wilderness areas in all of Canada are on the doorstep, with limitless opportunities for hiking, camping, fishing and just about every other outdoor activity imaginable.

These small towns also have all the advantages of modern, well-serviced communities. Schools are well established, and offer a range of specialty subject and extra-curricular choices. Many towns have their own hospitals and municipal services, including recreation facilities, police and fire departments and road links with Calgary.

The Calgary Regional Partnership website at [calgaryregion.ca/crp](http://calgaryregion.ca/crp) also provides valuable information on life just outside of the city boundaries.

# Satelite Communities

## Airdrie

The City of Airdrie is one of the fastest growing communities in Canada with 49,560 (2013) people located 10 minutes north of Calgary. ## Chestermere

Surrounding Chestermere Lake, the town of Chestermere started off as a summer village and was incorporated as a town in 1993. It has seen a steady population increase to 17,203 (2014). With its close proximity to Calgary (20 minute drive to downtown), Chestermere is a popular residential location for workers in downtown Calgary.

[chestermere.ca](http://chestermere.ca)

## Cochrane

Cochrane has a reputation for its Western culture which is evident in its downtown core, especially on Main Street. Also known for its quaint shops, including coffee and ice cream, it is a key tourist destination any time of the year. With a population of 20,708 (2014) and only 40 minutes to downtown Calgary, Cochrane's population is booming.

[cochrane.ca](http://cochrane.ca)

## Crossfield

Crossfield is a quiet place, home to 2,861 (2011) people, numerous green spaces, a bustling residential market and a solid industrial sector, often heralded as a "small town with plenty of atmosphere". Only 43 minutes to Calgary's downtown core and located in the Calgary-Edmonton corridor the population is growing quickly.

[crossfieldalberta.com](http://crossfieldalberta.com)

## Okotoks

Okotoks is a young, vibrant and sustainable community of 26,319 (2013) situated on the Sheep River. The community has devised a plan that focuses on self-sufficiency and sustainable living. # Health & Safety

Calgary is one of the safest and healthiest cities in the world. With an abundance of health resources and many safety contacts, we consistently rank near the top in global quality of living surveys.

# Health

If you are looking for a specific health, safety, government or social service you can dial 2-1-1 in Calgary or visit the Inform Alberta website at [informalberta.ca](http://informalberta.ca), Alberta's province-wide service directory.

## Alberta Health Care Insurance

The Alberta Health Care Insurance Plan is a service available to all permanent residents, and their dependants, of Alberta. There is absolutely no charge for this service, not even a monthly premium. You may choose to opt-out of the program, but every Albertan must register.

Alberta Health advises that if you arrive in Alberta ahead of your dependants you should maintain coverage for yourself and your family at the location where your dependants live.

You will find application forms and more information on the program at: [health.alberta.ca](http://health.alberta.ca)

Many employers will provide private insurance to cover other health care costs not covered by the AHCIP. If your employer does not provide this insurance, Alberta Blue Cross—an independent organization—can provide this service for a fee.

# Utilities

## Recycling and Composting

The city offers a blue cart recycling program for all single family residences, as well as residential buildings with up to four units. The service collects paper, cans, cardboard, glass and plastics on the same day and from the same location as regular garbage collection. If you need a blue cart, please call 3-1-1. As well, there are a number of community recycling depots around the city. The city also offers electronics drop-off spots and special seasonal services or events, such as hazardous materials disposal days, Christmas tree pick-up, and fall leaf and pumpkin collection days.

Check out the City of Calgary's website at [calgary.ca](http://calgary.ca) for more information.

There is no curbside organics composting program, but the City of Calgary, working with Green Calgary, [greencalgary.org](http://greencalgary.org), provides subsidized composters for your home for \$25 each.

## Electricity and Natural Gas

The Utilities Consumer Advocate are our voice when it comes to Alberta's electricity and gas markets. The UCA represents Alberta small consumers by advocating for reasonable costs, empowering Albertans, safeguarding consumer interests, providing balanced representation and resolving concerns respectfully. They also provide unbiased information to help you decide which energy providers to use.

Check out their website [ucahelps.alberta.ca](http://ucahelps.alberta.ca) to find out which energy providers are available in your city/town.

## Call Before You Dig

If you plan to disturb the ground, find out where the buried facilities on your property that are owned by the utilities are as part of your project planning process. If, for example, you are planning to build a fence, the presence of buried facilities may dictate where posts cannot be installed, which may affect the design of the fence, including the location of gates.

## The Lougheed House

The Lougheed mansion was built in 1891 and was originally known as Beaulieu, which is French for beautiful place. Just looking at the house it was very aptly named because it is indeed a beautiful house. During the early years the Lougheed house, many of the elite of society were guests of the Lougheed family, royalty, celebrities and politicians. The Lougheed House is now a National and Provincial Historic site and museum located on its original 2.8 acres in the Beltline of Calgary.

Explore the Lougheed House and gardens, take some time in the gift shop and then stay for lunch in the restaurant. If you go on the weekends they also serve brunch.

## Glenbow Museum

Glenbow's vision is for more people to experience art and culture more often. There are a variety of programs which are offered to the public. The exhibitions which are brought in and displayed add so much to what is already offered. The historical documents, artifacts and the history of our western heritage, provides a glimpse of how this province grew up. Their permanent exhibits appeal to everyone and offer a look at the world beyond. There is also a gift shop and a Discovery room which offers activities for any age.

[glenbow.org](http://glenbow.org) 130 - 9 Avenue SE

## Aero Space Museum

An afternoon spent at the aerospace museum is a chance to take a walk back in time through aviation history. The hangar presently used to house the museum pieces was used as a training hangar in WWII and then as a helicopter hangar. The aircraft on display are amazing and date back to planes from flight's early days to its jet planes.

What started out as privately owned collections have now become museum pieces for everyone to enjoy. The museum also has an extensive scale model plane collection and the attention to detail is impressive. Before you leave be sure to stop at the gift shop and pick up something special for yourself.

## Military Museum

The Military Museum is Western Canada's largest military museum. Go and discover the victories, the tragedies and the sacrifices of the Canadian Forces. The Military museum is a dedication representing Canada's navy, army and air forces by educating the public about Canada's military. The museum is made up of many different museums all in one. You have the Naval Museum of Alberta where you can watch the ocean roll by from a Second World War wheelhouse, watch convoys escort troops to Normandy, peer through a submarine periscope and see a real Banshee Naval jet fighter. You will learn all about Canada's Ships and the sailors who protect our coastlines. Then you have the Army Museum of Alberta that exhibits Alberta's military heritage from the 1885 Northwest Rebellion to today's mission in Afghanistan. Learn about First Nations' participation in the army and the reflection of women who served with the Canadian Women's Army Corps.

Sit inside a Second World War Nissen hut for a pre-mission briefing of a bomber squadron's operations in the Air Force Museum of Alberta. Explore a C-130 Hercules model and see today's air force in action. Discover the role of Canada's active tank unit from the Boer War to Afghanistan in the Lord Strathcona's House Museum. See the Regiments transition from horses to motorcycle to tank for action in Italy and NW Europe. In the Princess Patricia's Canadian Light Infantry Museum and Archives you can walk through a First World War Trench and learn the danger of peacekeeping. The Hall of Honour commemorates the regiments fallen soldiers and in the medals display you will find three Victoria Crosses. There are many more interesting museums to explore such as The King's Own Calgary Regiment Museum, Calgary Highlanders Regimental Museum and Archives, University of Calgary Military Museums Library & Archives, The Founders' Gallery and the Fall of '44.

# Moving

Moving can be a daunting process, but if you stay organized, stick to a schedule, and prepare for the unexpected, you will arrive in your new house more relaxed and ready to set up your new home.

# Moving Out Checklist

Purchasing a new home is exciting. To help save you time, stress, and money, we've created this handy Moving Checklist, giving you a detailed overview of what you need to do prior to your move, broken down into weekly tasks.

## As you begin thinking of moving...

---

- Create a "move file" to keep track of estimates, receipts, and other important information
- Draw out a floor plan of your new home. Start deciding which function each room will serve
- Start researching your new community
- Budget for moving expenses and start collecting estimates

## 7 weeks before moving...

---

- Start pulling together medical and dental records including prescriptions and vaccination records. If necessary, ask your existing doctors if they can refer you to a care provider in your new neighbourhood
- If you have children and they need to change schools, have school records transferred to their new school district and/or daycare
- Get copies of any legal and financial records you need
- If you have a pet, arrange for their veterinarian records to be transferred
- Call your insurance agent to see what changes to expect in your policies for changing locations. Ask if moving is covered and arrange for insurance for your new home
- If you are a member of a gym or an organization, ask how you can end, sell, or transfer your membership

## 6 weeks before moving...

---

- Make a list of things that are valuable or difficult to replace. Plan on shipping these by certified mail or carrying them with you
- Start planning a yard sale or contact your local charities
- Make a list of friends, relatives, and businesses who need to be notified of your move
- Start working your way through each room taking inventory, deciding what to get rid of
- Think about subscribing to the newspaper in your new hometown to start learning about events and the local culture

# Moving Out Checklist

## 5 weeks before moving...

---

- Start collecting boxes and other packing supplies
- Start packing items you don't use often. Also start disposing of the items you've designated for a yard sale, donation, or the junk yard
- Plan ahead for parking for the move, making sure that your movers are able to easily access your home
- Plan for short-term or long-term storage at destination if needed

## 4 weeks before moving...

---

- File a change of address
- Schedule disconnection of all utility services at your old home, and connection of them at your new one. Be sure to disconnect the day after you leave and connect the day before you arrive. If you have "last month" deposits with services, such as the water or gas company, request your refund
- If you are not moving yourself, make a reservation with a reputable and reliable moving service
- Make any necessary travel arrangements for your pets
- Advertise and host your garage sale
- Call your newspaper courier and set a date to cancel your subscription

## 3 weeks before moving...

---

- Make sure all library books have been returned and all dry cleaning or items out for repair have been picked up
- Retrieve any items out on loan to friends, etc...
- Decide if you will keep your plants or give them away
- Dispose of flammables, corrosives, and poisons
- If you are moving out of town, have your automobile(s) serviced
- Prepare auto registration to be transferred
- If you are moving into or out of an apartment, arrange to use the elevator on your move day

Tip

Create an "essentials box" which includes:

- cleaning supplies
- soap and handtowels
- toilet paper & bathroom essentials
- your bedding (make your bed first so you can sleep once you're tired!)

# Moving Out Checklist

## 2 weeks before moving...

---

- Contact your bank and/or credit union to transfer or close accounts. Clear out safety deposit boxes and notify creditors of your move
- Plan meals for the last week of the move to help empty the refrigerator and avoid using appliances that will already be packed
- Confirm travel arrangements for pets and family
- Assemble a folder of important information about the house for the new owner of your home
- Confirm parking for your mover

## 1 week before moving...

---

- Finish packing and prepare an “essentials” box. Designate several boxes and items as “last load” items. Pack your suitcases and valuables separately
- Empty, defrost, and clean your refrigerator at least 24 hours before moving day
- Drain all gas and oil from your mower and other motors. Gas grills, kerosene heaters, etc...need to be emptied as well
- Fill any prescriptions or medications you will need for the next couple of weeks
- Drain water hoses
- If necessary, make childcare arrangements for moving day
- Notify friends and family of your new address and phone number

## Moving out...

---

- Load your goods in a pre-designated order, saving “last load” items for the rear of your shipment. This might include your vacuum cleaner or bed sheets
- Take note of utility meter readings
- Check every room, closet, and cabinet one last time before deciding everything is loaded
- Leave a note with your new address in the house so that future residents can forward any stray mail
- Let a friend or family member know of your plans and whereabouts in case of an emergency or unforeseen event

**You're ready to move in to your new home!**

# Moving In Checklist

Moving into your new home might seem a bit daunting, but you have been organized throughout the moving process and you're ready to make this new space your own!

## Moving in...

---

- You are likely to arrive at your new home ahead of your shipment. Take this time to look things over and to ensure your new utilities have been connected
- Check appliances and systems to ensure all are working properly, and arrange for repairs if necessary
- Check to see if your mail is making it to your new address or pick up any mail being held
- Consider drawing out your new floor plan and decide where you want furniture and appliances placed

## \*Tip

Unload all of your things into the new rooms they will be used in; this way you can tackle unpacking one room at a time and give yourself an opportunity to tackle the most important rooms first.
