This four bedroom, three-and-a-half-bathroom custom home is humble in its size but capitalizes on the dynamic views found at The Highlands. Christopher Architecture and Interiors designed a modest floor plan in square footage but with a focus on entertaining. The Kitchen, Dining, and Great Room are organized in an open plan that allows guests to move freely between spaces. These spaces all open to a large outdoor terrace which is nestled among the site's existing pine trees. A covered outdoor room offers a fireplace and seating in a quieter setting.
